

Technical Notification 206

Dated: October 12, 2017

Re: Novice Pairs Short Program Requirements

The original publication of the 2018 U.S. Figure Skating Rulebook had the incorrect spin requirements for the novice pairs short program. The correct spin requirements for the novice pairs short program are:

One pair spin

- No change of foot
- Optional change of position
- Minimum of five revolutions total
- May not be commenced with a jump
- The rotation must be continuous, and no stop is permitted

A corrected version of the rulebook has been posted at <http://www.usfigureskating.org/story?id=84114>.
