

## ***Technical Notification 75***

**Dated: September 30, 2010**

**Re: Novice Pairs Free Skate – Program Duration**

There is an error in the 2011 U.S. Figure Skating Rulebook regarding the length of the novice pairs free skate.

On page 267, in the Novice Pairs Free Skate Chart, the program length should be 3:30 +/- 10 seconds.

The program length is listed correctly in rule 4060 on page 280 of the 2011 U.S. Figure Skating Rulebook. It is also listed correctly in the "2010-11 Pairs Free Skate Elements for Novice through Senior" chart that is posted on the Singles/Pairs page of the U.S. Figure Skating website in the Technical Info section ([http://www.usfigureskating.org/New\\_Judging.asp?id=355](http://www.usfigureskating.org/New_Judging.asp?id=355)).

The online version of the rulebook, posted at [www.usfigureskatingrulebook.com](http://www.usfigureskatingrulebook.com), was corrected September 29, 2010.
