Novice	7/1/2019	Novice MIF (Standard)	Junior (Standard or Adult)	Novice (Standard or Adult)
Intermediate	7/1/2019	Intermediate MIF (Standard)	Novice (Standard or Adult)	Intermediate (Standard or Adult)

*** Skaters must satisfy both MIF and FS prerequisites before taking Free Skate tests.**

Reference Information:

- *On 7/1/19, the adult intermediate through senior moves in the field tests were created.*
- *Prior to 7/1/19, adults could take the standard intermediate through senior moves in the field tests as adult 25+ or adult 50+ candidates (formerly called adult or masters candidates).*
 - *Standard intermediate through senior moves in the field tests were administratively considered the same test regardless of candidacy type.*
 - *Athletes were not required to take the next moves in the field test as the same type of candidate as their previous test. (For example, an athlete could take the intermediate MIF test as an adult candidate and the novice MIF test as a standard candidate).*
 - *All intermediate through senior moves in the field tests met the moves in the field prerequisite for the equivalent standard free skate test regardless of candidacy type. (For example, the senior MIF test taken as an adult 50+ candidate would satisfy the MIF prerequisite for the standard senior FS test).*
